

# Mobile Surveillance Unit **MSU MINI**

Keep an eye on your property,  
easily and economically

The MSU Mini is a complete plug-and-play security system in a portable package. The mini includes solid-state storage, a router and all necessary hardware to communicate with our Central Station. Essentially it houses everything our standard MSU does, only in a smaller case!

The MSU Mini is compact, portable and easily installed which makes this MSU an economical security solution with versatile mounting features. It is ethernet, WiFi and solar-power ready, offering remote access and/or local recording, as well as monitoring via ECAM's UL Listed Central Station.

## **BENEFITS**

- › Small Form Factor
- › Economical
- › Self-Contained
- › Customizable
- › Solar Option
- › Two-Way Audio
- › Video Indexing for Forensic Playback
- › Strobe Lights and Siren
- › Multiple Detection Zones

## **ADVANCED TECHNOLOGIES**

- › Maintenance and Service
- › System Health Check
- › Video Monitoring
- › Video Review
- › Artificial Intelligence (AI)
- › Log Reports
- › Advance Health Check Monitoring
- › Project Dash (In-House FOV Review)
- › Monitoring Redundancy

# Mobile Surveillance Unit **MSU MINI**

## Features
