

Mobile Surveillance Unit **MSU STANDARD SOLAR**

Portable 24/7 security anywhere

The MSU Standard Solar is a flexible powerhouse that expands security coverage cost-effectively. With two cameras of your choice, LED lights, strobe lights, and remote monitoring connectivity, the MSU Solar Standard can be configured to compliment your existing security model or serve as a foundation for comprehensive security from the ground up.

BENEFITS

- › Green Energy Solution
- › Advanced AI-Powered Live Video Monitoring + Human Expertise
- › Faster Incident Detection & Response
- › Proven Crime Deterrent
- › Unmatched Value & ROI
- › Monitoring via ECAM's UL Listed Central Station

IDEAL FOR

- › Economical security solution
- › Flexible and easy to relocate
- › Ethernet and WiFi ready
- › Remote client access

ADVANCED TECHNOLOGIES

- › Maintenance and Service
- › System Health Check
- › Video Monitoring
- › Video Review
- › Artificial Intelligence (AI)
- › Log Reports
- › Advance Health Check Monitoring
- › Project Dash (In-House FOV Review)
- › Monitoring Redundancy

Mobile Surveillance Unit **MSU STANDARD SOLAR**

Features
